Calibration System Item Number: VAS6905A	Price: \$12,233.23 * log in for dealer pricing. Out of Stock Add To Cart
--	---

- For calibration of the driver assist system Real Top View on Porsche vehicles
- The system enables a 360° overview of the area surrounding the vehicle by 4 cameras (rear, front and exterior mirrors)
- If the cameras change their position in the front section, rear section or exterior mirrors, e.g. upon replacement of the camera or mounting element, or the control unit is replaced, the system has to be calibrated
- For calibration, a level, open area of approx. 9x6m is required.

Change compared with VAS 6905:
Adapted calibration mats so that Macan and Cayenne models can also be adapted in addition to the Panamera.

- Items supplied:**
